EVENT SUMMARY

Please join us for 3rd in a series of 3 online workshops and networking events presented by the PA Disadvantaged Business Enterprise (DBE) Supportive Services Center and in partnership with the PA Diverse Business (DB) Supportive Services Center. The event objective will be to show DB/DBE's with multiple employees how to ensure all of their employees have access to supportive services virtually, as well as how to show non-DB/DBE primes, PennDOT district personnel and other supportive services stakeholders free resources and services that are available to help partner them with DB/DBE's and diverse workforce employees. This event will focus on searching for diverse firms using information from multiple state agency profiles, posting and searching for job and contract opportunities, and networking directly with firm users, all from within the virtual platform.
